Public Statement

Effective Date:

- a) This policy will apply to all services performed for groups new or renewing on or after 1-1-2015 which will become the new effective date.
 - b) For all services referred to in this policy that were performed before the revision date, contact customer service for the rules that would apply.
- 1) Procedures and lab tests performed by your doctor in the office may be routine or relatively complex. Similarly, medications given in the doctor's office may be routine and common, or more complex and less often used. You may have different benefits depending on what sort of procedure is performed; your schedule of benefits tells you what cost share is required for different types of procedures.
 - 2) Providers need guidance to make, and to help members make, this distinction. This policy provides a list of all procedures, tests, and medications that are considered "routine" and all procedures, tests, and medications that are considered "complex." Any procedures, tests, or medications *not listed* in this policy are considered "advanced." If you have questions about a particular procedure, you may call our Customer Service Department for additional information.

Medical Statement

- 1) QualChoice administered plans may require different cost shares for different types of procedures, *in addition to* the cost share for the office visit. It is important for physicians to be able to distinguish (and help members to distinguish) which procedures will be covered under the copayment as opposed to those that will not be --- requiring additional payment from the member. To facilitate that, the list of services classified as "routine" or "complex" is attached to this policy.
- 2) These rules do not override any coverage exclusions, limitations, restrictions, preauthorization requirements or other rules that specify when a code will or will not be determined to be a covered service.
