

Magellan Rx Standard Formulary

Welcome to Magellan Rx Management's Standard Formulary. A formulary is a list of covered prescription drugs. Please use this formulary drug list when you receive a prescription from your doctor. This formulary list is not intended to imply coverage and may change over time. Please refer to your plan document for detailed information about your drug benefit coverage.

The formulary is organized by categories depending on the type of medical conditions that they are used to treat. Medications are listed as Tier 1 Generic, Tier 2 preferred Brand, Tier 3 non-preferred Brand, Tier 4 preferred Specialty, and Tier 5 non preferred Specialty. All other drugs marked with NF or NC (non-formulary or not covered) are excluded on the formulary. Medications listed as "Specialty Drugs" are used to treat complex medical conditions that require special handling, administration, and member care management.

Our Pharmacy and Therapeutics Committee (P&T) and Value Assessment Committee (VAC) dedicate many hours to the clinical analysis and evaluation of peer reviewed literature and medical care guidelines to determine a drug's safety and efficacy. After this rigorous clinical evaluation, the committee weighs the financial implications of a drug compared to other similar drugs and selects appropriate Tier placement based on the drug's safety, efficacy, and cost-effectiveness. Please note all drugs on the Formulary Drug List are subjected to periodic review and amendment without notice.

Please keep in mind when a generic medication is chosen, patients pay the lowest copay available under their pharmacy benefit plan. When clinically appropriate, please consider choosing a generic product. If a preferred brand drug from the formulary is prescribed, your copay may be less than if a non-preferred brand drug is prescribed for you.

For the most up-to-date Formulary Drug list visit our website at magellanrx.com.

TIER		DESCRIPTION
T1	Generics	
T2	Preferred Brands	
T3	Non-Preferred Brands	
T4	Specialty Drug	
T5	Brand Specialty	
NC	Not Covered	
TYPE		DESCRIPTION
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
ST	Step Therapy	In some cases, you may be required to first try certain drugs to treat your medical condition before you move up a “step” to other drug options.
GL	Gender Limit	This prescription drug is restricted for a single gender.
AL	Age Limit	This prescription drug may only be covered if you meet the minimum or maximum age limit.
C	Custom	This drug has unique restrictions.
MED	Medical Drug	This medication is not on our drug list. Click on the THERAPEUTIC CLASS or sub class to find covered alternative medications. If you have questions, please contact member services.
HCR	Health Care Reform Products	The Affordable Care Act (ACA) requires certain preventive generic products to be covered at zero dollar copay. This does not include plans that are grandfathered.

PA Applies

Your provider is required to get prior authorization before you fill your prescription, which ensures appropriate use of the selected drug. Without prior approval, we may not cover this drug.

Quantity Per Day

Quantity Per Day.
