

We're Making it Easy to Make a Change

At QualChoice, we're making it easy to make the switch to great coverage.

New groups enrolling in QualChoice have the option to receive deductible and out of pocket credit – meaning you don't lose any of the progress you've made toward meeting your deductible or reaching your out-of-pocket maximum!

Taking advantage of this offer is easy – if your group chooses to participate, you will need to submit an Explanation of Benefits (EOBs) or a deductible and out of pocket accumulation report from your prior insurance carrier within 60 days of your group's effective date. Once we receive EOBs or an accumulation report, we can credit any deductible or out of pocket amounts incurred for the current year. This ensures you don't lose any deductible or out of pocket accruals and get the benefit of our robust provider network and great member service – without having to wait!
